DATA SHEET (Rev 02/2017)

Manufacturer : SEREME
Société d'Etudes et Réalisations de Moyens d'Essais

Model : **Acoustic Modulator SERMOD LF60**

TECHNICAL DATA :

Acoustic performances : Confidential data – subject to signature of NDA

Operating noise range : 20 Hz – 8000 Hz

Controllability range : 20 Hz – 350 Hz

Operating temperature range : 15° C – 25 ° C

Gas supply : Air or Nitrogen

Maximum inlet pressure : 2,5 bars

Maximum flow : 2,3 kg / s

Coil resistance : 2,20 Ohm

Maximum intensity : 12 Amp RMS

Monitoring measurement on 5 channels : option

Visual control : with glass zoom 5

WORKING CONDITIONS :

Nominal inlet pressure : 2,2 bars

Nominal flow : 1,9 kg / s

Nominal Intensity : 7 Amp RMS

All values for information only
